

INDUSTRIAL DESIGN SUMMER INTERNSHIP

Company: **TC STUDIO**
Location: Xiamen, China
Job Level: Intern
Field: Industrial Design
Job Functions: 3D Modeling & CAD, Design, Model Making & Prototyping

JOB DESCRIPTION

TC-STUDIO (www.tc-studio.com) a modern product design studio is seeking an Industrial Design/Mechanical Engineer Intern for a summer internship in Xiamen, China. This position is for 3-4 months with potential to extend to a full-time position beginning in March or April of 2010. Housing will be provided.

To be considered for this position you have to like the idea of experiencing China! Mandarin Chinese is not necessary, though may be helpful, but willingness to learn & experience a new culture is required. You will see & experience firsthand how product gets to market from ideation to production and all the fun behind the scene.

This is a post-graduate position and requires a degree in Industrial Design or Mechanical Engineering. The intern will assist the lead designer or engineer with product design ideation, sketching, prototyping and assist with trouble shooting manufacturing issues. The projects you will be working on are diverse, from fashion accessories, furniture, fixtures, packaging.

SKILLS:

Mechanical aptitude and Solidworks proficiency is required (or other 3-D software such as Pro-E, Rhino, Alias, or 3-D Max). Adobe Illustrator & Photoshop a must. Sketching is a plus.

The atmosphere is casual, dynamic and productive. From sketching in the studio to factory visits...no two days will be the same...must be able to think on your feet and willingness to get your hands dirty.

SUBMISSION DETAILS:

Please submit a cover letter, resume, and a PDF of your portfolio to hello@tc-studio.com. In your cover letter, please explain your professional goals and why you are interested in this opportunity.

Apply via email only. No phone calls, please.
